

JOB TITLE: AMBULATORY VETERINARY TECHNICIAN

JOB SUMMARY:

Miller & Associates seeks a veterinary technician to join its esteemed team of highly qualified and accomplished veterinarians. This position will be primarily based in Hampton Bays, NY with a seasonal commitment to Wellington, FL.

Veterinary technicians at Miller & Associates are given a great deal of responsibility and autonomy, from scheduling and assisting veterinarians to administering medical and physical therapy treatments, performing lab work and being intimately involved in inventory management. Our technicians are an essential feature in every facet of the practice. The ideal candidate works well both independently as in a group setting. Strong communication skills are a must.

QUALIFICATIONS:

Eligible candidates for this role must be experienced and highly skilled horse handlers. Prior equine veterinary technician experience is strongly preferred. Flexibility and willingness to travel are essential qualities in a candidate.

LOCATIONS:

This position requires a six (6) month annual commitment in Wellington, Florida, from November through April. Summers will be based primarily in Hampton Bays, NY.

BENEFITS:

This is a full-time hourly position that is overtime eligible.

Compensation is dependent on experience.

Company housing options are offered for the required Florida commitment.

Employer-sponsored health insurance is provided.

Paid time off is provided annually.

401K options are available upon hire.

Qualified applicants may send resumes to: Jacie@miller-dvm.com
