

NEW JOB LISTINGS: Updated: November 2021

SEASONAL-TO-FULL-TIME ASSISTANT BARN MANAGER

Duration: April 1st – November 30th

Hours: Tuesday through Sunday, 7 AM – 4 PM

Location: Brewster, NY

Miller & Associates is seeking a seasonal assistant barn manager to aid in the operation of our rehabilitation and CEM quarantine facility. The ideal candidate has both excellent horse handling and communication skills, with a desire to be fully immersed in a veterinary clinic type-setting. US work authorization is required for this role.

Intended Responsibilities:

- Daily full-service horse care to include but not limited to: cleaning stalls, feeding/watering, administering medication, hand walking mares, monitoring temperatures, grooming/tacking up for clients, cleaning tack, and maintaining a clean and well organized barn.
- Following all CEM protocols and proper bio-security between CEM quarantine and rehab.
- Assist barn manager with intake/discharge procedures for CEM mares.
- Assist CEM doctor with culturing process and record keeping.
- Clipping, mane pulling, wrapping as requested.
- Assist with monitoring inventory for both weekly supplies orders and monthly barn counts.
- Provide clear and consistent communication with clients regarding ride times and respond to requests for their mare's quarantine stay.
- Assist barn manager with exercise riding and/or lunging as needed.
- Occasionally assist with therapeutic modalities for rehab horses.
- Assist with weekly nutrition consultations on CEM mares and rehab horses.

Please contact jacie@miller-dvm.com to apply.

Opportunity for long term, full-time placement with the clinic is available with this position. Interested year-round candidates must be willing to make a commitment to working in Wellington, Florida from December – April.
